

## General Information

GSI Name: Look at the top of this paper.  
Webpage: [math.berkeley.edu/~limath](http://math.berkeley.edu/~limath)  
Office: 1020 Evans Hall  
Office Hours: Monday 9am-10am & 11am-12pm  
Syllabus: bCourses (You should check bCourses regularly for your homework.)

## Section Grade

The letter grade based on the section score will take 40% of the final course score or grade. Here, 40 will be divided into the following items.

- Attendance/Participation (5)

Possible scores you get: 2.5, 3, 3.5, 4, 4.5, 5. (Almost equally distributed.)

- Homework (20)

There are two types of homework: WebWork (online), Written homework (offline).

Both will be graded based on completion. (Completion means 'with enough justification or efforts'.)

-WebWork (10) : Each WebWork homework score will be graded by the percentage. The lowest 4 WebWork scores will be dropped. (You can check the due dates on bCourses.)

-Written homework (10) : There are total 15 Homework Sets. The score of each homework will be given by 0, 0.5, or 1 based on completion. The lowest two will be dropped. Every Tuesday is the due date for the previous week (written) homework. Each is due the beginning of the discussion section.

Only the **first homework is due Thursday (9/5)**.

- Quiz (15)

Every Thursday is the quiz day. Each quiz will cover up to (the same week) Monday material.

I will **try** to grade and return them by Tuesday.

The expected number of quizzes : 12 (8/29, 9/5,12,19,26, 10/10,17,24,31<sup>(Halloween)</sup>, 11/14,21, 12/5).

The lowest 2 quiz scores will be dropped.

No make-up quiz will be offered in general.

The total score will be ranked in each section separately.
